Parent Cybersafety Forum February 16

Dear Parents

Are you concerned about your child’s online behavior? Are you worried that they may not have adequate skills to protect themselves when on the internet? We are and that is why we are bringing out Susan McLean to work with parents in an interactive workshop.

Susan McLean is recognized world wide as an expert on Cybersafety. Susan established and managed the Victoria Police Cyber Safety Project as well as conducting hundreds of highly successful workshops around Australia.

Susan will be offering an information session for parents on Tuesday February 16 at 7:00pm. Susan will give parents up to date and vital information and excellent strategies for working with your children in their online world. The parent session will be held in the gym at a cost of $10.00 per family (2 adults). We strongly encourage a member of the family to attend. It is an adult only forum and unfortunately no child minding is available.

Daryl English
Assistant Principal

Please indicate your attendance, detach and return to the College with correct money enclosed

☐ Yes I would like to attend the Parent session on February 16. Cost $10.00 per family (2 adults)
